

• The **Northern Illinois Collection** (P2) features local trees and shrubs. Highlights include striking branch architecture and interesting bark.

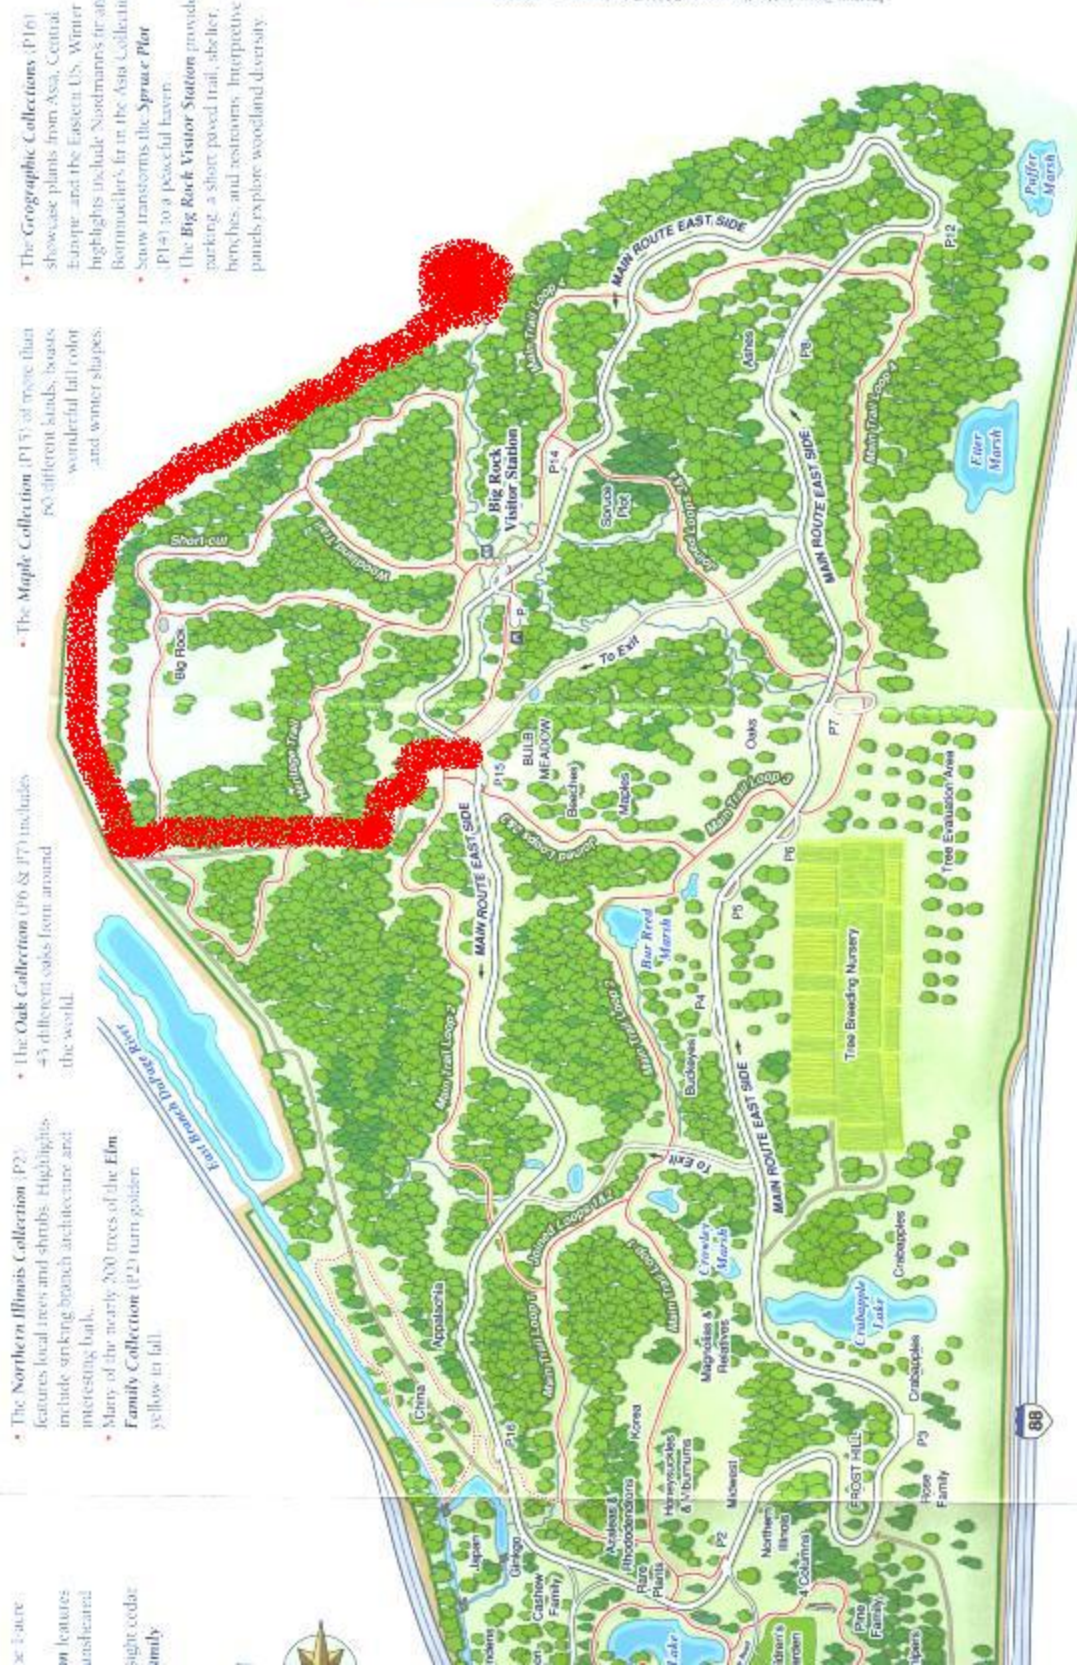

• Many of the nearly 200 trees of the **Elm Family Collection** (P2) turn golden yellow in fall.

• The **Oak Collection** (P6 & P7) includes 43 different oaks from around the world.

• The **Maple Collection** (P15) of more than 80 different kinds, boasts wonderful fall color and winter shapes.

• The **Grographic Collections** (P16) showcase plants from Asia, Central Europe, and the Eastern US. Winter highlights include Nordmann's fir and Bormann's fir in the **Asian Collections** (P14) to a peaceful haven.

• The **Big Rock Visitor Station** provides parking, a short paved trail, shelter, benches, and restrooms. Interpretive panels explore woodland diversity.
